This application is in condition for allowance except for the following formal matters:

In the Specification:

The disclosure is objected to because of the following informalities: The specification description of the respective drawing figures need to correspond to those reference labels which appear in the drawing figures. In particular, if a unique reference label appears in a particular drawing figure, then it needs to be correspondingly described in the specification description of that drawing figure. Applicant is requested to thoroughly review the specification to make sure that the labeled features of each drawing figure are correspondingly described in the specification. Appropriate correction is required.

In the Drawings:

The drawings are objected to because the substitute drawing figures filed 28 June 2004 have been disapproved. It should be noted that applicant has provided reference labels for those drawings depicting schematic aspects of the invention. However, many of these reference labels lack a corresponding description in the specification. In general, the drawing figures should contain reference labels corresponding to those described in the specification and vice versa. Likewise, any new reference labels added to the drawing figures should be correspondingly added to the specification's description of the drawing figures. Applicant is requested to thoroughly review the specification to make sure that the labeled features of each drawing figure are correspondingly described in the specification. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

In the Claims:

The following claims have been found objectionable for the reasons set forth below:

In claim 1, last paragraph, fourth line therein, note that "to" (i.e. after "section") should be deleted as being unnecessary.

Allowable Claims:

Claims 1-5, 8; 9 are allowable over the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication should be directed to Benny Lee at telephone number 571 272 1764.
